Will do, I can reach out to OWM re the 316b implementation challenges. Marcus is on travel, but I can reach out to his former staff person on it for a line or two. I will add the program implications from 404(g) perspective.

Thanks, Steve—Kathy H forwarded me the incoming, which Dave wanted as well. Also, will send her compilation of docs in case you think anything in addition to the incoming is useful to include as well.

Kathy—as discussed, if you could write a few lines on the implementation experience under 316b, and any other programmatic points that may be relevant, I will tack those onto to Steve's note when I forward.

Thanks,  
John
